## MK9-USB PRINTER

- Compact, portable printer for cable, wire and component marking on site.
- Feeds, prints and cuts bulk Partex profiles and self adhesive labels.
- Store and import markerfiles with a USB - PC connection, or by USB-memory.
- Chose between English, German or French language in the printer display.
- A cost effective identification system for use in panel building and electrical installations.

### GENERAL INFORMATION

#### Design

The third generation ProMark printer - MK9-USB - is a flexible thermal transfer printer. MK9-USB is ideal for fast, on site, complementary work. The marking machine is equipped with USB 2.0 connection to PC for fast transfer of marking files. It is also possible to save/load marker files on a USB-memory.

MK9-USB has several libraries with symbols that can be imported onto the marker. The MK9 is equipped with an International keyboard; therefore you have to import unique European letters from a library of European letters.
